

OBJECTIVE

Bringing life-affirming products and services to people's lives using established design strategies, combining thought-provoking research and advanced visualization techniques. Working collaboratively with inspiring professionals from all backgrounds to learn, grow and harness my skills – and together - engage consumers and build brands.

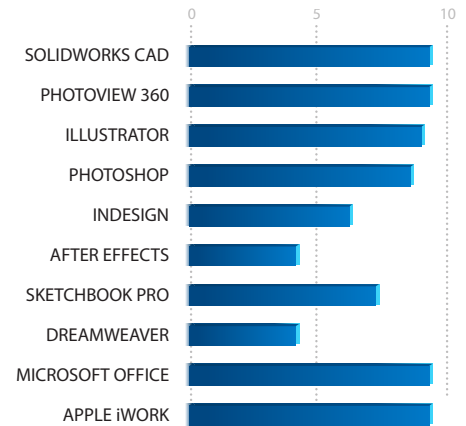

CAPABILITIES

Conceptual communication using quick hand sketching, bulk CAD modeling and iterative prototyping. Presentation skills in English, Bengali and some French with the aid of narrative graphics. Familiar with RIM, Injection molding, sheet metal, machining parts, CNC and Rapid Prototyping. Able to triumph in stressful environments and manage multiple projects with demanding deadlines.
